Subject: Microsoft Settlement

I believe that the proposed settlement with Microsoft is nothing more than a sell-out to Microsoft and a betrayal of justice. To refer to the settlement as a remedy is almost laughable, especially as Microsoft continues to strengthen and grow its monopolistic power with Windows XP, Product Activation, Digital Rights Management features, License 6.0, etc.

I realize that the will of the people is irrelevant in the face of the political power of Microsoft and its supporters, but I still wish to go on record opposing the alleged settlement with Microsoft.

Thank you.
